### Apprenticeship Competition To Be Hosted By Local 74

Saturday June 9, 2007 is the scheduled date of the Thirteenth Mid-States/Northeast District Councils Apprenticeship Competition. This year's event will be hosted by Local 74 in Buffalo, New York. This combined council was the originator of the Apprenticeship Competition and each year has produced increased interest and involvement from the local unions and their apprentices.

### Apprenticeship Activities Pictures Wanted

The Journeyman Roofer and Waterproofer Magazine would like to print pictures of your apprenticeship program activities. High quality pictures taken with digital cameras reproduce with the best results. We also suggest that you utilize close-ups wherever possible, and avoid large group photos taken from a distance as these types of photos are difficult to print with any degree of clarity.

Send your photos to the International Union to the attention of The Editor. ■
