ROOFERS LOCALS GIVING BACK TO THE COMMUNITY

Concession Stand Work Estimated at \$19,000

An arson fire burned down a concession stand in Northern Illinois last year. The concession stand was part of the park and school district. Little funds were available to replace the structure and donations were required.

Among the donators was Michael Prate, C.E.O., Prate Installations, Inc. of Wauconda, Illinois. Prate agreed to donate materials and labor to replace the roof on the structure. The job was completed and the concession stand was ready for baseball and softball seasons.

Local 11 Members Help Needy Family

The Steines family has a six year old daughter Kaitlyn who suffers from neurological seizures disorder and has been struggling with this disorder for five years. The doctors have been unable to determine the cause of Kaitlyn's seizure disorder and her future long-term prognosis remains uncertain. The medical bills and lengthy and frequent hospital visits have left the family financially strained. They also need to make their van and home handicap accessible for Kaitlyn.

The Building Trades came together and built a handicap addition to the Steines home and helped improve the existing home. The proud members of Roofers Local 11 Chicago did their part by donating their time to reroofing the existing home.
